SUMMARY

Associate solutions engineer with hands-on full-stack, AI workflow, API, SaaS, and customer implementation experience. Strong fit for roles that need technical discovery, demos, prototypes, integrations, documentation, QA validation, and clear communication between customers, product, and engineering.

SKILLS

Solutions: demos, technical discovery, workflow mapping, proof of concept, implementation support, documentation, stakeholder communication

AI/Product: LLM workflows, AI agents, RAG-style knowledge systems, prompt engineering, eval harnesses, response validation

Technical: Python, TypeScript, React, Next.js, FastAPI, Node.js, REST APIs, SQL, PostgreSQL, Supabase, Stripe, Vercel, AWS

Delivery: Agile, GitHub, CI/CD, Playwright, API testing, troubleshooting, support handoff, user training notes

EXPERIENCE

Associate Solutions Engineer / Builder | Nexural / Sage Ideas

2024-Present | Remote

- Built customer-facing SaaS workflows, admin dashboards, API routes, billing flows, auth, audit logs, client portal features, and documentation.
- Built Nexural Research with multi-provider LLM workflows, response validation, 58 FastAPI endpoints, report/export flows, and AI-assisted analysis.
- Built Nexural Automation with MCP tools, SDKs, workflow automation, contract tests, validation gates, and implementation documentation.
- Translated ambiguous user and business workflows into prototypes, technical requirements, demos, QA checks, and production features.
- Supported deployment and troubleshooting across Vercel, Supabase/Postgres, Stripe, GitHub Actions, Docker, and API integrations.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Worked with leadership, product, research, and operations stakeholders to deliver dashboards, reports, billing automation, market-data workflows, and documentation.
- Authored user-facing research and technical explanations that translated complex systems into clear decisions.

SELECTED PROOF

Nexural Research: LLM workflows, FastAPI, AI validation, reports, data-heavy user workflows.

Sage Ideas Studio: SaaS platform, client portal, Stripe, admin tools, docs, deployment.

Nexural Automation: MCP automation, tool docs, contract tests, workflow validation.

EDUCATION & CERTIFICATIONS

B.S. Computer Science | Full Sail University

B.S. Finance | Kean University

ISTQB CTFL | AWS Cloud Practitioner | AWS Solutions Architect | AWS ML Foundations
