SUMMARY

Business systems analyst with experience translating business workflows into requirements, user stories, test cases, dashboards, documentation, and production software. Strong fit for entry-level or associate analyst roles supporting SaaS, operations, fintech, AI tools, implementation, QA, and product teams.

SKILLS

Analysis: requirements gathering, process mapping, user stories, acceptance criteria, gap analysis, workflow documentation, KPI reporting

Systems: SaaS workflows, CRM-style pipelines, billing, auth, portals, admin dashboards, forms, APIs, database-backed applications

QA/Product: UAT, test cases, defect tracking, release validation, stakeholder feedback, documentation, Agile

Technical: SQL, Python, TypeScript, React/Next.js, FastAPI, Supabase/Postgres, Stripe, GitHub, Vercel

EXPERIENCE

Business Systems Analyst / Developer | Sage Ideas

2024-Present | Remote

- Mapped operating workflows into a production SaaS platform covering client onboarding, CRM-style pipelines, contracts, e-signature, billing, client portal, admin workflows, and audit logs.
- Translated business requirements into database fields, API routes, UI screens, user permissions, QA cases, documentation, and release checks.
- Validated workflows across auth, RLS, Stripe billing, document sharing, portal messages, admin dashboards, and customer-facing forms.
- Documented system behavior, implementation notes, troubleshooting guidance, and acceptance criteria for production workflows.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Translated fintech research, subscriber needs, market workflows, and leadership requests into reports, dashboards, internal tools, and product improvements.
- Authored technical documentation, research reports, financial analysis, and user-facing explanations for complex systems.
- Collaborated in Agile workflows using Git, code reviews, Jira, Slack, and async stakeholder updates.

Project Manager & General Contractor | Sage Ideas LLC

2016-2021 | Central Florida

- Managed client-facing projects with scope, schedule, budget, vendor coordination, customer communication, and final sign-off ownership.
