Orlando, FL | Remote | (908) 937-6568 | nexuraltrading@gmail.com

sageideas.dev | github.com/JasonTeixeira | linkedin.com/in/jason-teixeira

SUMMARY

IT support specialist candidate with hands-on experience troubleshooting web applications, user workflows, account access, SaaS tools, API behavior, deployment issues, documentation, and customer-facing technical problems. Strong fit for Help Desk Tier 1, IT Support Specialist, Technical Support Analyst, and desktop/application support roles.

SKILLS

Support: help desk, ticket triage, troubleshooting, issue reproduction, escalation, user communication, knowledge base documentation

Systems: SaaS applications, account access, permissions, auth flows, browser issues, email workflows, billing workflows, admin dashboards

Technical: Windows/macOS familiarity, browser dev tools, DNS basics, networking basics, SQL basics, APIs, GitHub, Vercel, Supabase

Process: Jira, Agile, root cause notes, bug reports, acceptance checks, release smoke testing, stakeholder updates

EXPERIENCE

IT Support / Product Support | Sage Ideas

2024-Present | Remote

- Troubleshoot production web application workflows across login, permissions, forms, billing, document sharing, email notifications, client portal access, and admin tools.
- Investigated issues using browser dev tools, logs, API responses, database records, screenshots, reproduction steps, and environment details.
- Wrote support notes, runbooks, documentation, bug reports, and release validation checks for SaaS workflows.
- Supported Vercel, Supabase/Postgres, Stripe, GitHub Actions, auth/RLS, email workflows, and API-backed features.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Supported fintech dashboards, subscriber workflows, billing automation, market-data tools, research publishing, and internal product operations.
- Communicated technical issues clearly to product, research, executive, and non-technical stakeholders.

SELECTED PROOF

Sage Ideas Studio: support for login, permissions, portal access, forms, billing, email notifications, admin dashboards, document workflows.

Nexural Automation: troubleshooting docs, CI checks, secret scanning, repeatable tool outputs, and validation workflows.

HighStrike: product support across subscriber workflows, billing automation, dashboards, reporting, and market-data operations.
