SUMMARY

Data analyst with finance, fintech, software, and reporting experience. Strong fit for junior data analyst, operations analyst, product analyst, and data quality roles requiring SQL, Python, Excel, dashboards, reporting, data validation, KPI tracking, documentation, and stakeholder communication.

TECHNICAL SKILLS

Analysis: data cleaning, data validation, KPI reporting, dashboards, trend analysis, financial analysis, variance review, data quality checks

Tools: SQL, PostgreSQL, Supabase, Python, pandas, Excel, CSV workflows, GitHub, Markdown

Visualization/Product: dashboards, user-facing reports, admin screens, metrics summaries, financial research, documentation

Workflow: requirements gathering, QA checks, issue tracking, stakeholder updates, Agile collaboration

EXPERIENCE

Data Analyst / Full-Stack Developer | Nexural / Sage Ideas

2024-Present | Remote

- Built data-heavy dashboards, reporting workflows, API-backed metrics views, admin screens, and export/report workflows across SaaS and fintech-style applications.
- Built Nexural Research with 71+ analytical metrics, AI-assisted strategy analysis, source-grounded response validation, and report workflows.
- Validated data flows across APIs, Postgres/Supabase tables, forms, dashboards, auth/RLS, billing records, and user-facing reports.
- Used Python, pandas, SQL/Postgres, FastAPI, and TypeScript to process, validate, display, and document analytical outputs.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Authored 200+ pages of investment analysis, financial reports, market commentary, technical documentation, and user-facing research explainers.
- Built and supported fintech dashboards, market data workflows, trade data ingestion, subscriber usage reporting, and billing automation.
- Translated financial and product questions into metrics, reports, dashboard requirements, and clear stakeholder updates.

SELECTED PROOF

Nexural Research: 71+ metrics, FastAPI, Python analysis, AI-assisted reports, response validation.

HighStrike: financial analysis, market reports, subscriber workflows, dashboards.

Sage Ideas Studio: 38 database tables, admin dashboards, audit logs, reporting-style workflows.
