SUMMARY

Web developer with hands-on experience building responsive React/Next.js interfaces, dashboards, forms, client portals, admin tools, marketing pages, API-backed screens, and production deployments. Strong fit for junior web developer, frontend developer, website specialist, and agency production roles.

TECHNICAL SKILLS

Frontend: semantic HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, responsive design, accessibility checks, SEO metadata

Backend/API: Node.js, FastAPI, REST APIs, serverless functions, form handling, auth, Stripe workflows, loading states, error states

Data/Tools: Supabase, PostgreSQL, Git, GitHub, Vercel, CI/CD, browser dev tools

Quality: Playwright, manual QA, regression testing, bug reports, performance checks, release smoke tests

EXPERIENCE

Web Developer | Sage Ideas

2024-Present | Remote

- Built and deployed production Next.js pages, dashboards, forms, client portal screens, admin interfaces, content pages, and API-backed workflows.
- Implemented responsive UI, navigation, route structures, metadata, forms, authentication flows, client-facing portal features, and admin screens.
- Connected frontend workflows to Supabase/Postgres, Stripe, API routes, email workflows, auth/RLS, and Vercel deployments.
- Tested web experiences through browser checks, Playwright E2E tests, responsive viewport checks, API validation, and release smoke tests.
- Built reusable UI sections, landing pages, blog/content pages, work/project pages, pricing pages, service pages, and recruiter-facing pages with clear page structure and mobile-friendly layout.
- Improved user flows with form validation, empty states, loading states, error handling, metadata, internal links, and cross-browser QA checks.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Built and supported React/Next.js dashboards, research interfaces, subscriber workflows, billing automation screens, responsive pages, and market-data tools.
- Wrote user-facing content, documentation, and explanations for technical and financial workflows.

SELECTED PROJECTS

Sage Ideas Studio: production Next.js platform, 105 routes, 57 API endpoints, admin screens, client portal, Stripe, auth.

Nexural Research: AI-assisted research UI, FastAPI-backed workflows, reporting/export screens.

Portfolio/site work: responsive pages, work pages, blog/content workflows, metadata, deployment on Vercel.
