

Jason Teixeira

Product Support Specialist | SaaS Support, QA, Documentation, User Workflows
Orlando, FL | Remote | (908) 937-6568 | nexuraltrading@gmail.com

sageideas.dev | github.com/JasonTeixeira | linkedin.com/in/jason-teixeira

SUMMARY

Product support specialist with experience supporting SaaS workflows, documenting issues, validating fixes, writing user-facing explanations, and translating customer problems into clear product requirements. Strong fit for entry-level product support, customer technical support, implementation support, and QA-adjacent roles.

SKILLS

Support: customer communication, ticket triage, issue reproduction, bug reports, escalation notes, user guidance, knowledge base documentation

Product: user workflows, requirements, acceptance criteria, QA validation, onboarding, dashboards, admin tools, billing workflows

Technical: SaaS, APIs, SQL basics, browser dev tools, Stripe, Supabase, Vercel, GitHub, React/Next.js familiarity

Communication: technical writing, financial research, training notes, async updates, stakeholder communication

EXPERIENCE

Product Support Specialist / Developer | Sage Ideas

2024-Present | Remote

- Built and supported SaaS workflows for client onboarding, billing, e-signature, document sharing, admin dashboards, audit logs, and client portal experiences.
- Wrote documentation, implementation notes, troubleshooting steps, and user-facing explanations for product workflows and technical behavior.
- Reproduced and validated defects across browser, API, database, auth, Stripe, email, and deployment workflows.
- Converted ambiguous product needs into requirements, acceptance criteria, QA checks, and shipped workflow improvements.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Supported research, subscription, market-data, billing, and dashboard workflows for a remote fintech product team.
- Authored 200+ pages of financial reports, user-facing research, technical documentation, and workflow explanations.
- Communicated with leadership, product, research, and operational stakeholders to clarify problems and deliver accurate outputs.

SELECTED PROOF

Sage Ideas Studio: client portal, admin workflows, Stripe billing, e-signature, document workflows, auth, audit logs.

HighStrike: subscriber workflows, market reports, billing automation, dashboards, research operations.

Nexural Research: AI-assisted analysis, report/export workflows, API validation, response quality checks.
