Tools/Technical: Stripe, Supabase/Postgres, SQL basics, dashboards, forms, admin tools, API workflows, GitHub, Vercel

Analysis: KPI reporting, data validation, revenue workflow checks, customer records, operational dashboards

Process: requirements, QA checks, documentation, stakeholder updates, implementation support

EXPERIENCE

Revenue Operations / SaaS Builder | Sage Ideas

2024-Present | Remote

- Built CRM-style operating workflows covering client intake, proposals, contracts, e-signature, invoices, Stripe billing, client portal, admin dashboards, and audit logs.
- Created database-backed workflows for customer records, project status, documents, billing, messages, templates, and operational tracking.
- Validated revenue workflows across forms, API routes, Stripe events, invoices, portal access, notifications, and admin views.
- Documented processes, implementation notes, troubleshooting steps, and operational runbooks.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Supported subscriber workflows, billing automation, usage reporting, dashboards, financial reports, and product operations for a fintech team.

SELECTED PROOF

Sage Ideas Studio: CRM-style workflows, client intake, proposals, contracts, invoices, Stripe billing, client portal, admin dashboards.

HighStrike: subscriber usage, billing automation, dashboards, reporting, financial analysis, and product operations.

Nexural Research: report/export workflows, metrics dashboards, API-backed analytics, and data validation.
