

Jason Teixeira

Technical Customer Success Associate | SaaS Onboarding, Support, Documentation
Orlando, FL | Remote | (908) 937-6568 | nexuraltrading@gmail.com

sageideas.dev | github.com/JasonTeixeira | linkedin.com/in/jason-teixeira

SUMMARY

Technical customer success associate with experience supporting SaaS workflows, onboarding, documentation, troubleshooting, implementation, QA validation, and stakeholder communication. Strong fit for technical CSM, customer success engineer associate, onboarding specialist, and product support roles.

SKILLS

Customer Success: onboarding, customer communication, support handoff, workflow guidance, documentation, training notes

Technical: SaaS, APIs, auth, billing, Stripe, Supabase/Postgres, dashboards, forms, portals, browser dev tools

Implementation: requirements gathering, workflow mapping, UAT, acceptance criteria, go-live checks

Support/QA: ticket triage, issue reproduction, bug reports, regression checks, escalation notes

EXPERIENCE

Technical Customer Success / Implementation | Sage Ideas

2024-Present | Remote

- Built and supported client-facing SaaS workflows across onboarding, billing, e-signature, document sharing, client portal, admin dashboards, messages, and audit logs.
- Created documentation, support notes, troubleshooting guidance, implementation checklists, and user-facing explanations.
- Reproduced and validated customer workflow issues across browser, API, database, auth, billing, email, and deployment layers.
- Translated stakeholder needs into requirements, workflow improvements, QA checks, and product documentation.

Senior Analyst & Full-Stack Developer | HighStrike

2021-2026 | Remote

- Supported subscriber workflows, research operations, dashboards, billing automations, and user-facing explanations for a fintech product team.
- Communicated complex financial and technical concepts clearly to stakeholders.

SELECTED PROOF

Sage Ideas Studio: onboarding, billing, e-signature, client portal, documents, messages, admin dashboards, and support docs.

HighStrike: subscriber workflows, research operations, billing automation, dashboards, and user-facing product explanations.

Nexural Research: AI-assisted reporting workflows, validation checks, export/report features, and technical documentation.
